

The control modules can be made up in aluminum or cast iron.
For standard applications aluminum is used normally, for

marine or mining applications we advise the choice of cast iron.
For the ATEX versions you need to use the cast iron controls.

HCN

Friction control

Code (Aluminum)	Code (Cast iron)
HCN0004103501	HCN0004103500

HCP

Rear cover

Code (Aluminum)	Code (Cast iron)
HCP0004104002	HCP0004104008

HCPA

Rear cover with stroke adjustment
